

FOR IMMEDIATE RELEASE

FrameCAD™ Solutions Ltd. chooses Cadsoft Envisioneer as Design Platform

Guelph, ON, June 8, 2008 — Cadsoft Corporation, the leading developer of design software for the professional building market, is proud to announce that FrameCAD Solutions Ltd. has chosen the Envisioneer design platform for the release of their FrameCAD Architect software.

FrameCAD Architect delivers an easy-to-use, cold-formed steel design solution with easy 3D Building Information Modeling that integrates with the FrameCAD design, detailing, engineering and factory management suite of software products. Clients can now create stunning presentations and 3D models that integrate directly with FrameCAD Detailer. FrameCAD Detailer will then convert the information into detailed cold-formed steel framing plans that are transferred directly to Steel FrameMaster manufacturing equipment for panelization and assembly.

FrameCAD Architect offers:

- 2D and 3D building design
- Rendering and presentations
- Dimensioning and annotation
- Bill of materials generation
- Integration with FrameCAD Detailer

"The relationship with FrameCAD Solutions is significant for Cadsoft," says Brad Finck, VP Business Development for Cadsoft Corporation. "FrameCAD's adoption of Envisioneer technology ensures that another important segment of the construction market will now be exposed to and take advantage of the Envisioneer platform."

Alex Morcom, Marketing Manager of FrameCAD Solutions, adds: "We chose the Cadsoft Envisioneer platform for FrameCAD Architect because it is easy to use and has been widely adopted throughout the industry. This now gives our clients a complete solution from conceptual design all the way through to the manufacturing process, delivering true end-to-end integration."

FrameCAD Architect will be released on June 30. For more information on the FrameCAD Software Suite, visit www.framecad.com.

About Cadsoft™ Corporation

Founded in 1984, Cadsoft Corporation is a leading developer of solutions for residential and light commercial designers, builders, remodelers, interior designers, and contractors. Our software solutions offer 3D design, working drawings, framing, rendering, animation, material take-off, and links to most major estimating packages. Cadsoft Envisioneer is the easiest-to-use BIM solution available in the industry today. It provides clients with a unique marketing advantage and unsurpassed production capabilities. Visit www.cadsoft.com for more information.

About FrameCAD Solutions Limited

FrameCAD Solutions develops the world's most advanced, end-to-end, cold-formed steel frame building solutions that combine FrameCAD engineering, design and detailing software with FrameCAD Factory machine control systems. This integration has resulted in an intelligent, automated building system that streamlines the design and manufacturing process, cuts production time, and builds a better product.
